

# Discovering your Authentic Self: Finding the Person you Want to Be and Living the Life you Want to Live

Who is living your life you or someone else? This is the question that you need to ask yourself. For many of us we have a tendency to lead guarded lives only showing to a select few their true selves. For many of us we live in constant fear or doubt that if we don't conform to the way society sees us that we will be shunned or outed forced to fend for ourselves. Why do we do this? Why is it that we feel that we need to please others instead of ourselves? In this book we will explore that question and many others. We will talk about what makes up our authentic selves as well as what we can do in order to become the person we want to be.

Developing your Self Image What do you see when you look in the mirror? Do you see a strong person or do you see someone who is weak? When someone asks you to do something for them are you quick to give assistance in fear that if you were to say no that you would no longer be liked or you would no longer have that person as a friend? What do you do for yourself to develop your self image in order to be the person you want to be? Developing a strong self image is the first step in finding your authentic self. When you know who you want to be and why then you have the foundation to stand on in order to make a change. So if you are ready to take a good hard look at your life and begin to make a change then you are ready to download this book and begin to learn the steps required to find your authentic self and live the life you want and deserve to live.
