

For years, John Ferber drifts aimlessly within his wealthy Manhattan social set. Comfortable and complacent, John has few goals and even less fire. But when a powerful investment bank manipulates him in its devious scheme for a corporate takeover, all that changes abruptly. Johns one-time friends and colleagues are swiftly transformed into ruthless adversaries. And to compound matters, as his business and social life spin out of control, a sudden illness renders him physically helpless. Gravely ill and with the woman he loves about to leave him for another man, a redefinition of self and some unexpected good luck provide him with the leverage for regaining his life of action, albeit at the price of lost relationships and ethical compromises.
