

# The Legends Son: ...and the Ultra-Competitive World of Alabama Football

Told in first-person narrative by a social outsider, *The Legends Son* is no doubt the most riveting look at the attitudes and opinions of the Deep South since *Gone With The Wind*. To Pat Murphy, a northerner, the Deep South was always as foreign and distant a place as some third-world country on another continent. All he knew about the region was what he had read in history books, studying events like the Civil War and the Civil Rights Movement. And that's all he wanted to know. But when he unexpectedly finds himself in the Heart of Dixie, he suddenly has to learn all about its customs and traditions. He quickly realizes, in Alabama, the cliché Football is a way of life isn't a cliché at all. He is astounded to the point of being fascinated at just how incredibly stout the spirit and pride is. And he's absolutely bewildered right from the start. Like the Martin Sheen character in *Apocalypse Now*, I was going deeper and deeper into a world I had no idea even existed, he writes. He proceeds to go on a rip-roaring adventure, encountering everything from colossal corruption right up to the state capital building to a staggering array of colorful characters Charles Dickens couldn't make up. Most notably... *The Legends Son*. But when he unexpectedly finds himself in the Heart of Dixie, he suddenly has to learn all about its customs and traditions.
