

Peirce, Pragmatism, and the Logic of Scripture

This is the first study of Charles Peirces philosophy as a form of writing and the first study of his pragmatic writings as a critique of the modern attempt to change society by writing philosophy. Ochs argues that, as corrected by the pragmatists, the task of modern philosophy is, through writing, to diagram the otherwise hidden rules through which modern society repairs itself. Peirce labelled this elemental writing enscripting, or scripture. Redescribing Peirces pragmatism as the logic of scripture, Peter Ochs suggests that Christians and Jews may in fact re-read pragmatism as a logic of Scripture: that is, as a modern philosophers way of diagramming the Bibles rules for repairing broken lives and healing societal suffering.
