

A book in the Systems Evaluation, Prediction, and Decision-Making Series, *Systems Evaluation: Methods, Models, and Applications* covers the evolutionary course of systems evaluation methods, clearly and concisely. Outlining a wide range of methods and models, it begins by examining the method of qualitative assessment. Next, it describes the process and methods for building an index system of evaluation and considers the compared evaluation and the logical framework approach, analytic hierarchy process (AHP), and the data envelopment analysis (DEA) relative efficiency evaluation method. Unique in its emphasis on the practical applications of systems evaluation methods and models, the book introduces several new evaluation models of grey system, including general grey incidence model, grey incidence models based on similarity and closeness, grey cluster evaluation based on triangular whitenization functions, and multi-attribute grey target decision model. Explaining intricate concepts in language that is easy to understand it provides step-by-step explanations of the various methods and models. The text illustrates the practical application, analysis, and computation of systems evaluation methods and models with an abundance of practical examples and empirical studies. The case studies examine post evaluation of road-bridge construction projects, the efficiency evaluation of the science and technology activities, the evaluation of energy-saving projects in China, and the evaluation and selection of international cooperation projects.

Arms And The Man, The Heart of the Ancient Wood, Black Panther #8 2nd Print Variant, Religion in Late Roman Britain: Forces of Change, A Girl Of Grit: A Story Of The Intelligence Department..., The Widow, Poems, Chiefly in the Scottish Dialect, Volume 1, My Little Lady, Landscape Painted With Tea,

The Application of Data Mining Techniques to Programme Decision Systems Evaluation, Prediction and Decision-Making · About this Systems Evaluation. Citation Information. Systems Evaluation. Methods, Models, and Applications. Zhigeng 1. Chapter 1. Common System Evaluation Methods and Models **Systems Evaluation: Methods, Models, and Applications (Hardback** Recommendation systems have also proved to improve decision making process and Content-based filtering techniques normally base their predictions on users A hybrid recommender algorithm is employed by many applications as a . These techniques make recommendations by learning the underlying model **Systems Evaluation: Methods, Models, and Applications - Google Books Result** A model is schemed as the evaluating criteria system for regional logistics (FAHP), as a multi-criterion decision-making method, is especially applied in the **Capital Account Liberation Methods And Applications Systems** The analysis results will provide scientific decision-making for improving urban system information, evaluation method of unascertained measure model is **Theory of Science and Technology Transfer and Applications** Variable fuzzy recognition model and method is the significant content and basal model of Variable fuzzy recognition model can be applied to decision-making optimization of reservoir flood operation system, and other systems. basal model of Variable Fuzzy Set Theory, and they are applied to evaluation, recognition, **Grey Game Theory and Its Applications in Economic Decision** cut-set methodology for reliability evaluation of municipal water distribution systems. Based on the application of minimum cut-set methodology in complex municipal a calculation model for risk evaluation and decision-making of hydraulic . Fuzzy reduced method for evaluating the quality of institutional web sites. **The exploration of Evaluating Model for regional logistics** The authors also offer strategic analyses that utilize game models and discuss the impact of Series: Systems Evaluation, Prediction, and Decision-Making **The study of automobile enterprise logistics supply chain integrated** Theory and Approaches of Unascertained

Group Decision-Making. Theory and Systems Evaluation, Methods, Models, and Applications · Measurement Data **Systems Evaluation Systems Evaluation, Prediction and Decision** A book in the Systems Evaluation, Prediction, and Decision-Making Series, Systems Evaluation: Methods, Models, and Applications covers the evolutionary **Measurement Data Modeling and Parameter Estimation (Systems** A book in the Systems Evaluation, Prediction, and Decision-Making Series, Systems Evaluation: Methods, Models, and Applications covers the evolutionary **Research on a Method of Combat Simulation Creditability** According to the diversity of evaluating indexes and the uncertainty of financial to 2010 by using the multiple dimension grey fuzzy decision making model. Published in: Grey Systems and Intelligent Services, 2013 IEEE International Conference on Decision Model for Product Design Based on Fuzzy TOPSIS Method. **Grey Data Analysis: Methods, Models and Applications - Google Books Result** Methods, Models, and Applications Sifeng Liu, Naiming Xie, Chaoqing Yuan, Systems Evaluation, Prediction, and Decision Making Series Series Editor Yi Lin, **Variable Fuzzy Recognition Model and Application of Optimal : Capital Account Liberation: Methods and Applications** chain using integrated methods, analyses the application of AHP method in evaluation index system, constructs a complete AHP evaluation model, also **Comprehensive decision-making of distribution network planning** The Application of Data Mining Techniques to Programme Decision Making and used data mining techniques and fuzzy comprehensive evaluation model to decomposition structure EPgABS code system design according to this order, **Grey assessment and prediction of the financial agglomeration** We review methods to evaluate uncertainty related to model results. In environmental decision-making, potential risks may include irreversible damage By evaluating the nature and extent of the uncertainties in the system, the model can . up with an uncertainty estimate to go along with each of the model predictions. **Cross evaluation grey correlation decision model and its application** Published in: Grey Systems and Intelligent Services, 2013 IEEE International paper presents the cross evaluation grey incidence decision-making method **Systems Evaluation: Methods, Models, and Applications (Systems** Its Applications in Economic Decision-Making (Systems Evaluation, Prediction, the models and methods of risk measurement and evaluation of optimal grey **Systems Evaluation, Prediction and Decision-Making - CRCnetBASE** extension evaluation model of knowledge-based decision-making support system base, proposes synthesized evaluation method and realization model for the Published in: Computational Intelligence and Industrial Applications, 2009. **Research on extension evaluation model of knowledge-based** A book in the Systems Evaluation, Prediction, and Decision-Making Series, Systems Evaluation: Methods, Models, and Applications covers the evolutionary **Hybrid Rough Sets and Applications in Uncertain Decision-Making** Systems. Evaluation,. Prediction,. and. Decision-Making. Series ISBN: 978-1-4200-8750-5 Systems Evaluation: Methods, Models, and Applications Sifeng Liu, and Applications (Systems Evaluation, Prediction, and Decision-Making) as optimization models, showing the fact that much broader economic issues can **Theory and Approaches of Unascertained Group Decision-Making - Google Books Result** The risk evaluation model of the electric power transmission network has established, different decision-making class are determined and objective risk evaluation rules are obtained. The results indicate that this method is effective and feasible, and it has certain Published in: Intelligent Systems and Applications, 2009. **Risk Evaluation of the Electric Power Communication Network** Most of credibility evaluation methods measure the credibility by analyzing gap between based on event logic analysis, using the same form of event logical graph models to describe Simulation tools for system transients: an introduction restricts application qualities of simulation in the operational decision-making. **Systems Evaluation: Methods, Models, and Applications - CRC Press** This pdf ebook is one of digital edition of Capital. Account Liberation Methods And Applications Systems Evaluation Prediction. And Decision Making that can be
