

Steppenwolf

Harry Haller is a sad and lonely figure, a reclusive intellectual for whom life holds no joy. He struggles to reconcile the wild primeval wolf and the rational man within himself without surrendering to the bourgeois values he despises. His life changes dramatically when he meets a woman who is his opposite, the carefree and elusive Hermine. With its blend of Eastern mysticism and Western culture, Hesse's best-known and most autobiographical work, originally published in English in 1929, *Steppenwolf* continues to speak to our souls and is a classic of modern literature.
