

## Missing in Africa

Marooned alone on a yacht after a natural disaster - abducted by savage natives to be a trophy wife - subjected to ritual combat with a mortal enemy - Paula escapes into the dark wilderness only to confront marauding beasts and getting lost. Help comes in a most surprising form, taking her into the realm of transcendental experiences. The journey back to the yacht is fraught with appalling confrontations and eerie nighttime stories that take her back a hundred years to cruel and ugly times. Paula reaches her destination only to be met with crushing disappointment - and the need to choose her destiny.
