

As one of Britains legendary group of Angry Young Men dramatists, Joe Orton shot to fame on the strength of vicious farces like *Loot* and *What the Butler Saw*. Today, with Ortons work garnering increasing attention and recognition in the wake of the 1987 feature film about his life, *Prick Up Your Ears*, his early writing has still remained obscure. Now the publication of these two recently discovered plays, written immediately before his breakthrough successes, reveals a key moment in his development as a dramatist. *Fred & Madge*, Ortons first play, is an absurdist drama, fraught with social critique and sexual innuendo. Its the story of a married couple whose respective jobs are the Sisyphean task of rolling boulders uphill and sieving water all day long, until they discover they are inhabiting a play about themselves. *The Visitors* is a brutally realistic rendering of a dying man who is visited in the hospital by his middle-aged daughter, while the attending nurses spend more time fighting than caring for their patients. Written in 1961, it shows the beginnings of the mature voice that would come to fruition in his next projects, *The Ruffian on the Stair* and *Entertaining Mr. Sloane*, which made his name in London and the world.
