

# The Arborhex

Kevin Destines entire life changed the day his parents perish in an accident that occurred before his eyes. He soon realizes that his father, an archeologist, left him a will, telling him to search for the vault that his father uncovered before his death. With the help of his cousin, Kevin found the vault, where he and his cousin are sent to a strange island. There, Kevin meets new companions, while discovering that the magical world and the horrific species that inhabited the island had an ancient connection with his home continent, Odaus. On the island, Kevin learns old and new lessons that strengthen several aspects of his life. Upon returning home, Kevin and his friends discover that the enemies they faced on the island followed them home. Hence, they are forced to find ways to vanquish the troubles that plagued their metropolitan home, before their enemies true plan can come to full bloom.
