

## The War Of Kings

Disgusted by King Malthans insane madness and his obsession at seeking revenge over his younger brother, Amax rejects his master and allys himself to King Ferron, vowing to help him destroy the young kings uncle. But Malthans power is growing by the day and more and more of his demon army are pouring through from the Darkworld into the world of the light. In order for him to counter his uncles magic, King Ferron must become a wizard by accepting the dubious advice of a wood witch and take up the sword of a long-dead ancient order of wizards and go into the Murk, alone, to face the most terrifying task that could be asked of a king. And so, in an epic battle to the death, the three kings of Thraithia must face one another with the use of such powerful magic that it could potentially threaten the very existence of the world of the light and all who reside there - even the gods!
